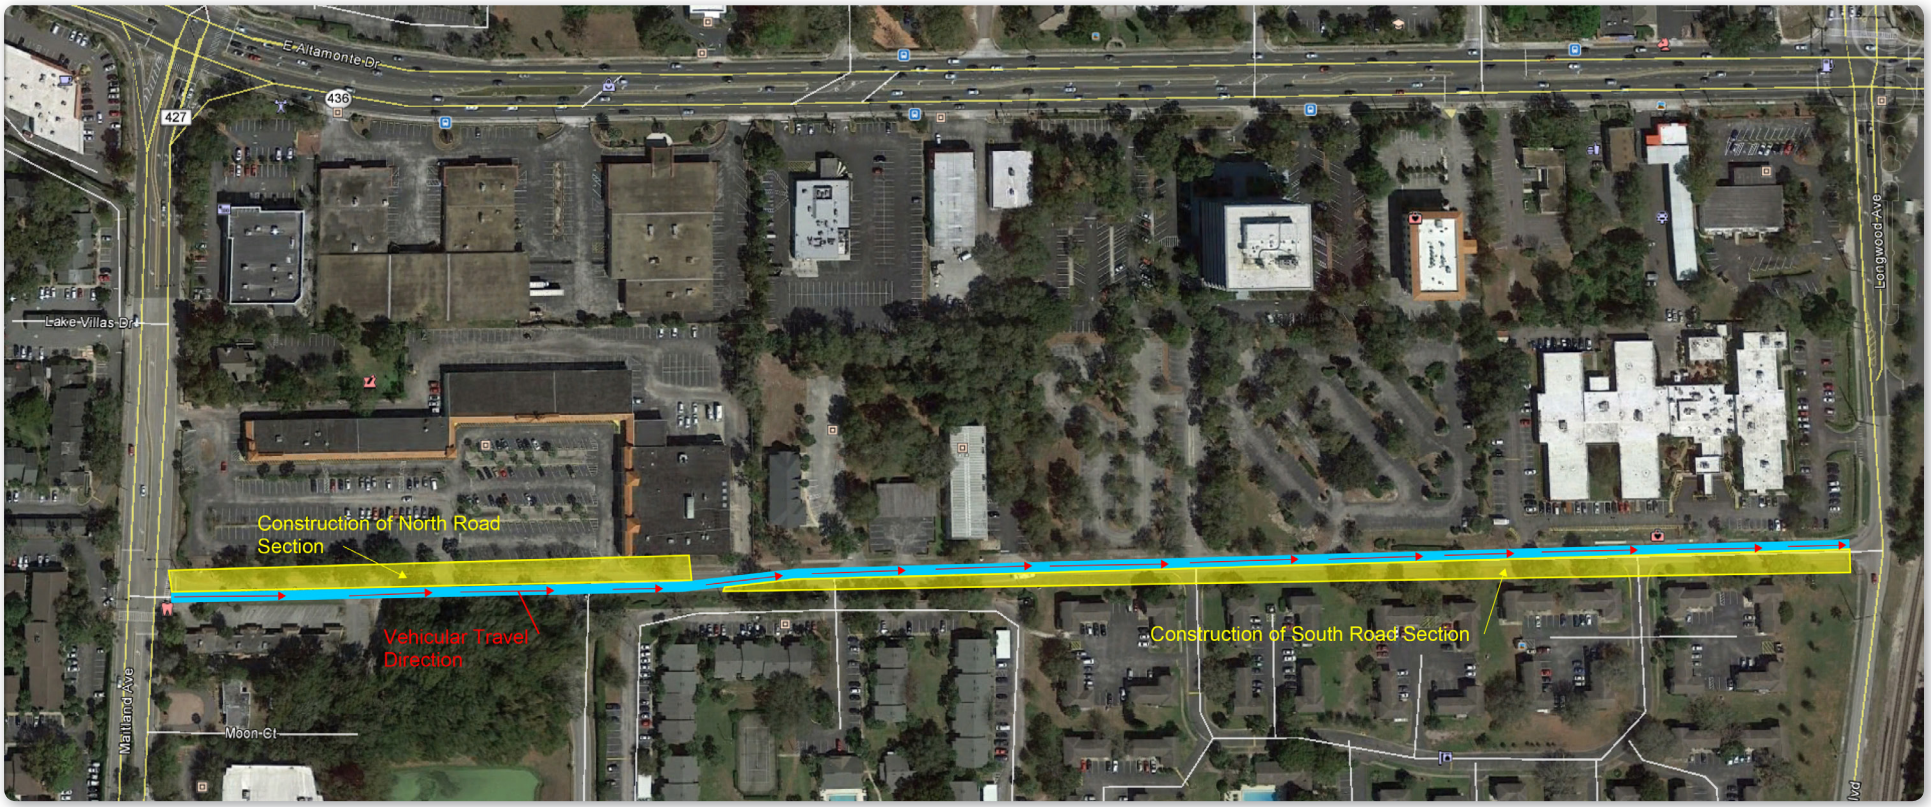
Orienta Avenue Improvements Project



Orienta Avenue has been converted to one-way traffic eastbound from Maitland Avenue to Ronald Reagan Blvd. The lane closure will remain in effect from August 22 to September 23, 2016 to allow for construction of the re-aligned roadway and utility improvements.

The road will remain in this one-way configuration, with a minor shift, after September 23 to complete the roadway construction. This shift is anticipated to be in place until October 19, 2016 (weather permitting).

Message boards, directional signs and barricades are in place to direct motorists. All property driveways are accessible to vehicular traffic during all phases of construction.
